

## **Summary of Activities for Board**

Function: Organizational Liaison

Linda Hyde, RHIA

Date: September 6, 2007

### Summary of Activities:

This activities of this function have been re-designed to focus on establishing relationships with other state organizations to promote MHIMA expertise throughout the state. Major focus areas for this year will be the Massachusetts Health Data Consortium and the Massachusetts Hospital Association.

A brief discussion with Jerilyn Heinhold of the MHDC at their annual meeting in June was initiated to look at ways in which MHIMA may be able to provide support for their various forums. Follow up for more details will take place in late September.
